How to install ballerburg on Android

- put ballerburg.bas and baller.rsc and baller.dat in /mnt/sdcard/bas
- make a new directory /mnt/sdcard/bas/sound
- put all 8 sound files (ballermus.ogg, bumm.ogg, die.ogg, einschlag.ogg, explosion.ogg, flagweg.ogg, flail.ogg, horn.ogg) into this directory. (the sounds are taken from wesnoth).

List of bugs to be fixed

- Anbauen does not work.
- make an english version of this game. (if someone has an english version)
